

Dear Student,

As you are aware, you have completed subject assessments this year instead of taking exams for the awarding of your grades in the summer. You will already know the assessment information provided below but we thought it would be beneficial to provide a summary to discuss with your parents/carers. This will allow any questions to be addressed now, rather than after results are issued.

We have also provided a [link to our Centre Policy](#) which details the school process for the awarding of grades in 2021 which can also be discussed if required.

Below we have provided a breakdown of the assessments you have completed. As you know these will form the evidence base for the holistic grade which we will submit to the awarding body for each subject you have been entered for. The awarding body will then externally sample the work of several randomly chosen students.
